SECTION 2: STUDENT CERTIFICATION

I declare and affirm under penalty of perjury that the statements and information made herein are true and correct to the best of my knowledge, information and belief. I understand that the law provides severe penalties for knowingly and willfully falsifying or concealing a material fact, or using any false document in the submission of this form.

I certify that:

1. I have reviewed, understand, and will adhere to this Training Plan for STEM OPT Students ("Plan");
2. I will notify the DSO at the earliest available opportunity if I believe that my employer is not providing me with appropriate training as delineated on this Plan;
3. I understand that the Department of Homeland Security (DHS) may deny, revoke, or terminate the STEM OPT of students whom DHS determines are not engaging in OPT in compliance with the law, including the STEM OPT of students who are not, or whose employers are not, complying with this Plan;
4. My practical training opportunity is directly related to the STEM degree that qualifies me for the STEM OPT extension; and
5. I will notify the DSO at the earliest available opportunity regarding any material changes to or deviations from this Plan, including but not limited to, any change of Employer Identification Number resulting from a corporate restructuring, any nontrivial reduction in compensation from the amount previously submitted on the Plan that is not tied to a reduction in hours worked, any significant decrease in hours per week that I engage in a STEM training opportunity, and any decrease in hours below the 20-hours-per-week minimum required under this rule.

SECTION 4: EMPLOYER CERTIFICATION

I declare and affirm under penalty of perjury that the statements and information made herein are true and correct to the best of my knowledge, information and belief. I understand that the law provides severe penalties for knowingly and willfully falsifying or concealing a material fact, or using any false document in the submission of this form.

I certify on behalf of the employer that this Training Plan for STEM OPT Students ("Plan") is approved and that:

1. I have reviewed and understand this Plan, and I will ensure that the supervising Official follows this Plan;
2. I will notify the DSO at the earliest available opportunity regarding any material changes to this Plan, including but not limited to, any change of Employer Identification Number resulting from a corporate restructuring, any reduction in compensation from the amount previously submitted on the Plan that is not tied to a reduction in hours worked, any significant decrease in hours per week that a student engages in a STEM training opportunity, and any decrease in hours below the 20-hours-per-week minimum required under this rule;
3. Within five business days of the termination or departure of the student during the authorized period of OPT, I will report such termination or departure to the DSO (*Note: business days do not include federal holidays or weekend days; and an employer shall consider a student to have departed when the employer knows the student has left the practical training opportunity, or when the student has not reported for practical training for a period of five consecutive business days without the consent of the employer*); and
4. I will adhere to all applicable regulatory provisions that govern this program (*see 8 CFR Part 214*), which include, but are not limited to, the following:
 - a. The student's practical training opportunity is directly related to the STEM degree that qualifies the student for the STEM OPT extension, and the position offered to the student achieves the objectives of his or her participation in this training program;
 - b. The student will receive on-site supervision and training, consistent with this Plan, by experienced and knowledgeable staff;
 - c. The employer has sufficient resources and personnel to provide the specified training program set forth in this Plan, and the employer is prepared to implement that program, including at the location(s) identified in this Plan;
 - d. The student on a STEM OPT extension will not replace a full- or part-time, temporary or permanent U.S. worker. The terms and conditions of the STEM practical training opportunity—including duties, hours, and compensation—are commensurate with the terms and conditions applicable to the employer's similarly situated U.S. workers or, if the employer does not employ and has not recently employed more than two similarly situated U.S. workers in the area of employment, the terms and conditions of other similarly situated U.S. workers in the area of employment; and
 - e. The training conducted pursuant to this Plan complies with all applicable Federal and State requirements relating to employment.

Note: DHS may, at its discretion, conduct a site visit of the employer to ensure that program requirements are being met, including that the employer possesses and maintains the ability and resources to provide structured and guided work-based learning experiences consistent with this Plan.

SECTION 5: TRAINING PLAN FOR STEM OPT STUDENTS (Completed by Student and Employer)	
Student Name (Surname/Primary Name, Given Name): Kilaru, Tri Sai Venkata Nagarjun	
Employer Name: Natera, INC	
EMPLOYER SITE INFORMATION	
Site Name: Natera	Site Address (Street, City, State, ZIP): 5100 Franklin Drive, Pleasanton, CA 94588
Name of Official: Rikki Saechao	Official's Title: Supervisor
Official's Email: rsaechao@natera.com	Official's Phone Number:
Note: for the remaining fields in this section, employers who already have an internal/pre-existing training plan in place may fill in the details based on that plan.	
<u>Student Role:</u> Describe the student's role with the employer and how that role is directly related to enhancing the student's knowledge obtained through his or her qualifying STEM degree. The student works as an Accessioning Team Runner in a data-focused technical role at Natera, contributing to the development, enhancement, and maintenance of Laboratory Information Management Systems (LIMS) and accessioning web applications used in clinical diagnostics. The student applies Computer Science principles such as software development, system design, database interaction, and workflow automation to support accurate sample tracking, data integrity, and operational efficiency. This role directly enhances the student's academic knowledge by applying theoretical concepts from coursework to real-world, production-level healthcare software systems in a regulated environment.	
<u>Goals and Objectives:</u> Describe how the assignment(s) with the employer will help the student achieve his or her specific objectives for work-based learning related to his or her STEM degree. The description must both specify the student's goals regarding specific knowledge, skills, or techniques as well as the means by which they will be achieved. The primary goal of this training is to strengthen the student's practical software engineering skills in a real-world clinical technology setting. Through assigned projects, the student will gain hands-on experience in developing and optimizing web applications, working with structured data systems, and supporting LIMS workflows. The student will improve proficiency in programming, debugging, system integration, and performance optimization while learning best practices for secure and compliant software development in healthcare. These objectives will be achieved through supervised development tasks, code reviews, system testing, and continuous feedback from technical mentors.	
<u>Employer Oversight:</u> Explain how the employer provides oversight and supervision of individuals filling positions such as that being filled by the named F-1 student. If the employer has a training program or related policy in place that controls such oversight and supervision, please describe. The student receives direct supervision from an experienced supervisor and works closely with technical and operational team members. The employer provides structured oversight through task assignments, regular check-ins, code reviews, and performance evaluations. Training is conducted within established company policies and development workflows to ensure proper guidance, compliance, and skill progression. The supervisor monitors the student's progress, provides technical feedback, and ensures that all work aligns with training objectives and professional development goals related to the student's STEM degree.	
<u>Measures and Assessments:</u> Explain how the employer measures and confirms whether individuals filling positions such as that being filled by the named F-1 student are acquiring new knowledge and skills. If the employer has a training program or related policy in place that controls such measures and assessments, please describe. The employer measures the student's progress and skill development through ongoing supervision, structured task assignments, and regular performance evaluations. The student's work is assessed based on successful completion of assigned software development tasks, adherence to technical requirements, code quality, and contribution to system functionality and workflow efficiency. Feedback is provided through code reviews, team discussions, and periodic check-ins with the supervisor. The employer also evaluates the student's ability to apply Computer Science concepts such as programming, system design, data management, and problem-solving within a clinical technology environment. These assessment methods ensure the student is continuously acquiring and improving relevant technical skills aligned with the STEM training objectives.	

Additional Remarks (optional): Provide additional information pertinent to the Plan.
