State* | Zip Code* | Telephone Number* ( )

Additional Report Recipient | Additional Report Recipient Fax or Email

3. INSURANCE & PAYMENT INFORMATION*

Please attach front and back of insurance card.

Medicare Only – Patient Status: ○ If inpatient, add Date of Discharge _____ ○ Outpatient

Bill To:* ○ Medicare ○ Self-pay ○ Other Insurance ○ Clinic

Primary Insurance Company* | Member ID* | Group Number | Prior Authorization Number

PLEASE SELECT ICD-10 CODES ON THE BACK

Secondary Insurance Company | Member ID | Group Number | Compassionate Care Reference Number (if Applicable)

Sample collection to be managed by: ○ **Natera** (default) **OR** ○ **Clinic** **Provider prefers:** ○ **Blood** ○ **Saliva**

4. TEST OPTIONS (REQUIRED)* *See page 2 for panel descriptions information*

1 *Must select **only one** base test below:*

○ ***BRCA1*** & ***BRCA2***
For patients meeting hereditary breast and ovarian cancer syndrome testing criteria

○ **Lynch syndrome (*MLH1, MSH2, MSH6, PMS2, EPCAM*)**
For patients meeting colorectal cancer syndrome testing criteria

○ **Other Panel ID** _____

AND

2 *May select **only one** additional test (optional):*

○ GYN, Guidelines-based (total 19 genes)
○ Multi-Cancer (total 40 genes)
○ Comprehensive (total 81 genes)
○ Breast STAT (10 genes) + Comprehensive (81 genes)
Can only be ordered with the *BRCA1/2* base test

Please attach your most recent progress/clinical notes or send them to oncologyce@natera.com. These are often required for insurance coverage.

5. PATIENT COMPLETE CANCER HISTORY* *(include all cancers and age of dx)*

○ **Check this box if the patient does not have a history of cancer or current diagnosis of cancer** (if no cancer please complete the family history of cancer section)
○ Patient has had genetic testing for hereditary cancer (If yes, please attach the report)

Cancer/Tumor			Age at Dx
○ Breast	○ DCIS ○ Invasive Ductal ○ Invasive Lobular	○ Triple negative (ER-, PR-, HER2-) ○ High-Risk HER2-** ○ Metastatic	
○ Ovarian	○ Non-epithelial		
○ Prostate	○ Metastatic	○ Intraductal/Cribriform	
○ Pancreatic			
○ Endometrial/Uterine			
○ Colon/Rectal			
○ Stomach			
○ Hematologic malignancy (Leukemia/Lymphoma) ○ Active ○ No Evidence of Disease			
○ Other cancer(s): Type _____			

Additional information
○ Colon Polyps: Number of polyps _____
If tumor screening was performed, select all that apply:
○ MSI high? If yes, cancer type tested _____
○ Mismatch Repair (MMR) proteins absent on IHC? Result _____

** See NCCN.org for the definition of high-risk disease

6. FAMILY HISTORY OF CANCER*

○ No known family history
○ Limited family structure: Adopted or less than two 1st/2nd degree relatives living past age 45 years old
○ Check this box if any below relatives are willing to be tested

Relationship	Maternal or Paternal		Cancer site(s)	Age at Dx	Relative Deceased

7. ICD-10 CODES

Select all ICD-10 codes that apply. Additional options at natera.com/icd10codes.

- ◯ C56.1 Malignant neoplasm of right ovary
- ◯ C56.2 Malignant neoplasm of left ovary
- ◯ C50.911 Malignant neoplasm of unspecified site of right female breast
- ◯ C50.912 Malignant neoplasm of unspecified site of left female breast
- ◯ C61 Malignant neoplasm of prostate
- ◯ C25.9 Malignant neoplasm of pancreas, unspecified
- ◯ C55 Malignant neoplasm of uterus, part unspecified
- ◯ C18.9 Malignant neoplasm of colon, unspecified

- ◯ Z80.0 Family history of malignant neoplasm of digestive organs
- ◯ Z80.3 Family history of malignant neoplasm of breast
- ◯ Z80.41 Family history of malignant neoplasm of ovary [epithelial]
- ◯ Z80.42 Family history of malignant neoplasm of prostate
- ◯ Z80.8 Family history of malignant neoplasm of other organs or systems
- ◯ Z85.3 personal history of malignant neoplasm of breast
- ◯ Z86.010 Personal history of colon polyps
- ◯ Other ICD-10 Code(s) _____

8. PATIENT ACKNOWLEDGMENT* (READ BELOW AND SIGN PATIENT ACKNOWLEDGMENT)

I have been informed of and understand the details of the test ordered herein for me by my health care provider, including the risks, benefits, and alternatives, and have consented to testing. I understand that the test results may inform me of a medical condition that may require medical follow-up. I also understand that a negative result does not rule out the possibility of such medical condition.

I authorize Natera or other provider to share the information on this form and my test results with my insurer/health plan ("plan") on my behalf, with all benefits of my plan made payable directly to Natera or other provider. I understand that I am responsible for (a) costs not paid by my plan directly to Natera for tests ordered, including, without limitation, any copayments, deductibles, or amounts deemed 'patient responsibility' and (b) any amounts paid to me by my plan. This testing will not be covered by my plan if it is outside of the plan's coverage guidelines or deemed not medically necessary – (e.g. where prior authorization is required but not obtained) and I will be responsible for the cost of such testing (this does not apply to Medicare beneficiaries as a separate ABN is required).

I assign to Natera the right to appeal on my behalf negative coverage decisions made by my plan and to assert all rights and claims reserved to me as the beneficiary thereof. The information obtained from my tests may be used in scientific research, publications or presentations, but my specific identity will not be revealed. Natera may contact my healthcare provider to obtain more information regarding clinical correlation and confirmatory testing. My leftover samples may be de-identified and used for research and development. I and my heirs will not receive payments, benefits, or rights to any resulting products or discoveries. If I do not want my samples used for research and development purposes, I will send a request in writing to Natera Sample Retention Department at the address below within 60 days after test results have been issued and my samples will be destroyed.

By my signature I acknowledge I have read and agreed to the Patient Acknowledgment for testing.

By providing the information included herin, I understand and agree I may be contacted via, e.g., e-mail, or cellular or home phone, by text message, automatic telephone dialing system, or computer assisted technology for treatment options, billing/collection matters, and health-related products, services, or studies. I authorize Natera to share this form and any supporting documentation with an independent genetic counselor if required my insurance. I understand that my treatment, payment, enrollment or eligibility for benefits is not conditioned on my providing such consent and I may opt out at any time by emailing privacyofficer@natera.com, or by checking this box. ◯

◯ New York residents must check this box and sign below to permit Natera to use their samples for research and development; otherwise, their samples will be discarded within 60 days of testing.

◯ By checking this box, I agree that Natera may contact me directly about updates to my results if my provider cannot be reached.

Patient Signature* **X** _____ Date* _____

9. CONTRAINDICATIONS FOR EMPOWER TESTING

Patients with a history of allogenic bone marrow transplant, active hematologic malignancy, or minors without medical necessity for testing.

10. BREAST CANCER RISK MODEL INFORMATION *(For female patients without a personal history of breast cancer)*

1. Height ____ ft ____ in | 2. Weight _____ lbs | 3. Has the patient had children? ◯ Yes ◯ No How old was the patient when they gave birth to their first child? _____

4. Approximate age at first menstrual period? _____ | 5. Has the patient gone through menopause? ◯ Yes ◯ No ◯ Ongoing If yes, at approximately what age? _____

6. Ashkenazi Jewish descent? ◯ Yes ◯ No | 7. Has the patient ever used hormone replacement therapy? ◯ Yes ◯ No ◯ Ongoing Start date: _____ End date: _____
If yes, what type? ◯ Estrogen ◯ Estrogen + Progesterone ◯ I don't know

8. Number of relatives: Sisters: _____ Daughters: _____ Maternal aunts: _____ Paternal aunts: _____ Maternal half-sisters: _____ Paternal half-sisters: _____

9. Has the patient ever had a breast biopsy? ◯ Yes ◯ No/No proliferative diseases If yes, what was the result? ◯ Hyperplasia (no atypia) ◯ Atypical hyperplasia ◯ LCIS ◯ Don't know

10. Has the patient had breast density assessed by mammogram? ◯ Yes ◯ No ◯ Unknown
If known, complete ONE of the following: ◯ **VAS percentage density** _____-_____% ◯ **Volpara volumetric density** _____-_____%
◯ **BI-RADS ATLAS density:** ◯ Fatty ◯ Average ◯ Heterogeneously dense ◯ Extremely dense ◯ Unknown

11. FAMILY TESTING PROGRAM

◯ Natera Family Testing Program: Blood relatives of individual with a positive Empower test are eligible. *Only check this box if this information is provided.*
Learn more at: natera.com/empower

Patient's relationship to the positive relative _____

Family Member Natera Case ID _____

- Attach a copy of the relative's positive Empower report or provide their Natera Case ID
- Order must be received within 90 days of original report date
- Panel to be the same size or smaller compared to previous relative's test order
- Not available to family members covered by government insurance plans

12. SAMPLE REQUIREMENTS

Blood Sample: One 6mL Lavender-top BD Vacutainer® K2 EDTA blood tube

OR

Saliva Sample: One 2mL Oragene® (OGD-500) Saliva tube
